

# L.I.F.E. Training Report

Redondo Beach CA, June 25<sup>th</sup> & 26<sup>th</sup>, 2005

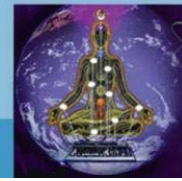

**“Got L.I.F.E. ”**

June 25 & 26, 2005 Quantum Life hosted its first L.I.F.E. Training. The event took place in Redondo Beach, California. With almost 50 participants it was a fabulous beginning to our new L.I.F.E. community!

We had a chance to see what the L.I.F.E. System is capable of in the hands of someone like Dr. Sherry Greenberg! Her insights with the use of the L.I.F.E. System as well as in the world of holistic healing are invaluable. Sherry told us she is compiling a flip chart that will catalog the location of everything in the entire program having to do with any specific condition. She thought this might be available in a few months time, dependant of course on her busy schedule, as she has a full time practice.

Many of those in attendance were among the first to purchase a L.I.F.E. System. They had many insights and tips that they shared with the group. April Dangerfield from California has created a spreadsheet detailing every panel and its categories for those wanting to record their results in an Excel spreadsheet. She generously offered this to all of us. If you would like a copy of this spreadsheet please contact April at: [april@subtleEnergyLLC.com](mailto:april@subtleEnergyLLC.com). Michael Dangerfield also shared a few computer tips with us as he turned out to be incredibly tech savvy. Jim & Jan Van Meter from Texas have been using the L.I.F.E. System for several months now and had a lot to add from their experiences. Also in attendance was Jim Pickerell also from California who has served as a Quantum Life Trainer in the past. His expertise in the field of animal bioenergetics has always been enlightening and this training was no exception.

We were also introduced to Shari Carr's daughter, Christina (age 11) taught herself how to use the L.I.F.E. System. Like so many kids of her generation, un-intimidated by seemingly complex computer programs, she whizzed around the program like she had been using it her whole life. What an inspiration to see someone so young already aware of and using technologies like the L.I.F.E. System.

## SOME FEEDBACK FROM OUR NEW LIFERS!

“The bioenergetic device, L.I.F.E. System, is a well orchestrated piece of hardware interfaced with PC software. The Demographics screen, with the easy to load picture, and the accessible Program Index and Reactivity Test allows one to learn quickly and benefit from the information offered. The numerous functions that can be performed from the Reactivity page are easy to use. This trait is consistent throughout all the L.I.F.E. System program panels. The L.I.F.E. System program panels are extensive including Meridian Therapy, Spinal, Brain, Cell Com, Emotions, and many more. One of my favorite panels, Pets/Animals, was quite helpful, precise and a very solid addition to the L.I.F.E. System program panel as well as the pad and harness. The panels throughout L.I.F.E. System are rock-solid, run smoothly and are easy to navigate. Acquiring information that will best benefit the client you are evaluating is really very easy and intuitive. I also like being able to play a nice soothing, healing, CD, running other Windows’ programs, all while the L.I.F.E. is, testing or in feedback mode.”

– JP, California

“The class was right on at the right time in my LIFE”

The L.I.F.E. equipment is the very best I have found in my 10 years of testing”

-Dr. JVM, Texas

“I am so happy to be learning a device I can be proud of”

-GE, Washington

“Thank you for the Professional Presentation and useful information”

-AD, California

The L.I.F.E. machine training course was really superb. I enjoyed the training and your helpfulness”

**Thank you, so much to everyone who attended and all of you who participated in the lively interactive conversations. We look forward to seeing all of you again in Costa Rica this December. Until then we will be holding other training events around the USA. Our next training is scheduled in Texas around the middle of August. Watch this space.**

## Some Valuable Nuggets From The Training For All Practitioners:

Loading a client photo:

After downloading a client photo and saving it to "My Pictures" preferably in a designated Clients Photo File.....

1. Open your Life Program
1. Go to the Demographic Panel of your specific client
2. Above place for photo, choose "Load Pic."
3. At the drop down menu, choose "My Documents"
  - Then "My Pictures" or what ever file you may have saved it in
  - Double Click on your photo of choice and it should appear in the designated photo location in Demographics.

### The Cell Com Program

Those of you who have other biofeedback devices may be familiar with this application within the Cell-Com Program called the Tri-Vector. You may also be aware of it's shortfalls in the other devices such as only listing the numbers and phases. Thanks to Chris Keser purchasing this from Gabor Ledinsky who actually developed this program. This is unique to The L.I.F.E. System! Thanks Chris!
